

Professional Labelling Machine

The compact P-touch 1290DT is the ideal labelling machine to identify and organise files, CD cases, shelves and other items in your office.

- Create stylish labels using Deco Mode
- Personalise your labels using 2 fonts and 8 font styles
- Includes AC adapter, labelling tape & handy desk tidy
- Prints 3.5, 6, 9 & 12mm labels

Organise your office

Clearly labelled items around the office, such as file folders, CD & DVD cases, letter trays etc, make for a much more efficient workplace. With the Brother P-touch 1290 DT labelling machine, labels are easy and quickly created, and with the wide variety of widths and colours available, there will be a tape for all your needs.

Easy to use, portable labelling

This compact and easy-to-use labelling machine is the perfect tool to create an efficient and organised workplace through clear identification of your office items. Its neat and stylish design, and the flexibility to use batteries, means the machine can be used wherever and whenever required.

Always at hand

You can keep the P-touch-1290DT Labelling Machine on your desk by storing it on the included compact and handy desk tidy. Also included are an AC adapter and labelling tape everything you need to be instantly organised.

Stylish labels in an instant

Have fun and be creative with the Deco Mode function! Simply choose from one of the 15 designs, type in your text and print. In seconds you will have a high quality, durable label that will last for many years.

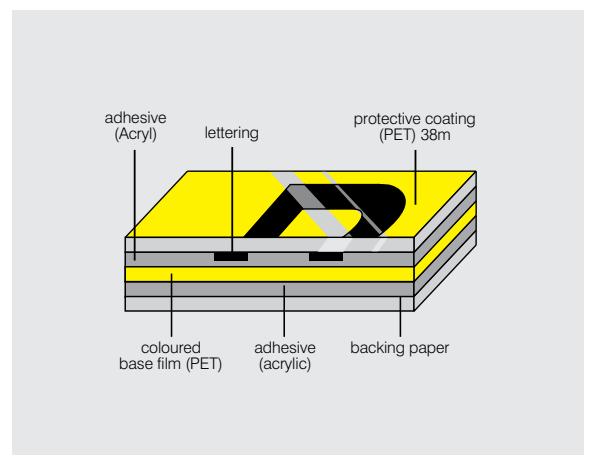

Make your mark!

The features of the P-touch 1290DT make it quick and easy to create your perfect label in seconds. Add a personal touch to your labels using the stylish Deco Mode or by adding frames around your text. And with 80 built-in symbols, two fonts and eight different font styles, the possibilities are virtually endless. Be imaginative with your labelling!

P-touch laminated labels – designed to last

Unlike ordinary labels, Brother P-touch laminated TZ tapes consist of six layers of materials, resulting in a thin, extremely strong label. Characters are formed with a thermal transfer ink and sandwiched between two protective layers of PET (polyester film). We've tested them to the extreme, against the effects of abrasion, temperature, chemicals and sunlight. Results prove that Brother P-touch laminated labels out-perform competitor labels, so you can be confident of a professional quality label that has been designed to last.
